SAILING SUPREMACY

Koru, the world's largest sailing yacht, showcases an exterior by Dykstra Naval Architects and interior by Mlinaric, Henry and Zervudachi Interior Design and Decoration. This three-masted schooner showcases a classical design with its midnight blue hull and canoe stern, offering ample deck space for relaxation, including three jacuzzis and a swimming pool. Inside, the yacht boasts a timeless contemporary style, featuring natural wood tones, warm neutrals, and beautifully patterned tiles. Measuring an impressive 125 metres in length with a 17.2-metre beam, Koru accommodates up to 18 guests and a crew of 36, including the captain. Powered by 2 MTU engines, she reaches a top speed of 20 knots, making her a remarkable blend of luxury, style, and performance on the high seas.

Pioneering Electric Brilliance

The 80 Sunreef Power Eco SOL sets a new standard in leisure craft under 24 metres with the industry's largest battery bank, nearly one-megawatt hour, combined with integrated solar panels. This remarkable combination grants the yacht nearly 300 nautical miles of e-motoring autonomy. For longer journeys, a range extender ensures transoceanic capability.

SOL features a 990kWh battery bank with extended life, increased power, optimal weight, and a compact size. Its versatile charging system accommodates various voltage levels worldwide, adding convenience for global cruising.

This universal multihull yacht offers ultimate comfort for long cruises. Its spacious design, bold styling, and impressive amenities redefine power catamaran luxury. The master suite in the bow, vast living spaces, and a sprawling flybridge make SOL a masterpiece of modern yacht design, while customisable layouts ensure personalised luxury for every guest. **IP**
